# Why Global Organizations Trust GFD?

# Why Global Organizations Trust GFD?

We don't just deliver accounting reports; we design "Decision-Making Ecosystems." Our experience is rooted in leading transformation projects for sovereign government entities and major financial institutions. We are your strongest partner in:

- **Philosophical Standard Application:** We implement **IFRS** and **IPSAS** with an analytical vision that serves strategic management goals.
- **Intelligent Oversight:** Designing internal control and audit systems that ensure asset protection and operational efficiency.
- **Financial Technology:** Seamlessly integrating financial operations with **ERP systems** (SAP, Oracle, Dynamics GP) for real-time data accuracy.

# Meet THE TEAM

**Ahmed Soliman**  
*Legal Advisory*

**Moemen Mohamed**  
*Zakat Advisory*

**Consultancy Services Portfolio**

# Consultancy Services Portfolio

## 1. Strategic Advisory & Valuation

- **Modeling & Valuation:** Building dynamic financial models for business valuations, M&A, and investment scenarios.
- **IFRS/IPSAS Convergence:** Leading the full transition journey to international reporting standards.
- **Growth Management:** Developing 5-year strategic plans and comprehensive feasibility studies for startups and established enterprises.

## 2. Digital Transformation & ERP Solutions

- **ERP Engineering:** Expert advisory on selecting and implementing SAP, Oracle, and Dynamics GP systems.
- **Management Dashboards:** Building interactive, high-fidelity dashboards for executive decision support.
- **IT Audit:** Ensuring the integrity, security, and compliance of digital financial data.

## 3. Professional Training & Development

- **Financial Camp:** Intensive, hands-on training for financial teams on the latest international tools and standards.
- **Professional Certification Prep:** Specialized programs for international fellowships and advanced financial modeling practices.
